-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 19 February 2008.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6, 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 line 11 recites “the side plates (7,8) extend upwards, advantageously above the knee of a person standing on one or both of the foot plates”. This limitation is indefinite since it would be dependent on the size of the person using the device.

In claim 3 line 2 “the thickened plate parts” lacks proper antecedent basis.

In claim 4 line 3 it is unclear what is meant by “ensuring perfect function of the device practically at a distance (m) from ground level (t)”. It is also unclear what “the operating position of the device that makes function possible”. Furthermore it is unclear what “the same level” is referring to, i.e. same level as what?

In claim 5 line 3 “the curved convex, as seen from the outside, connection rib” lacks proper antecedent basis.

Claim 9 line 2 recites “wherein at the height of the shins of the person using the device there is a supporting plate fixed to each of the side plates.” This limitation is indefinite since it would be dependent on the size of the person using the device.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4, 6 (as understood) is rejected under 35 U.S.C. 102(b) as being anticipated by McKissick 2,971,773.

McKissick discloses a sport device that is propelled by kicking away from a solid surface comprising:

a wheel (48) that can be rotated around an axle (55); foot plates (32) extending outwards under the level of said axle by said wheel having two side plates (36) fixed to the axle of the wheel and the foot plates rigidly fixed to a lower end range of to the side plates, the lower end range of the side plates being formed so that the side plates extend upwards; the side plates being fixed together as a yoke (18) via a connection rib, wherein the foot plates are positioned at a distance from the axle of the wheel; wherein the side plates are formed so that they only partly cover a side of the wheel where in the vicinity of the wheel axle their width is smallest (at 50), and from this range their width increases downwards and upwards.

***Response to Arguments***

5. Applicant's arguments with respect to claims 1-6, 9 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. As set forth in MPEP 714.13, it should be kept in mind that applicant cannot, as a matter of right, amend any finally rejected claims, add new claims after a final rejection (see 37 CFR 1.116) or reinstate previously canceled claims. Except where an amendment merely cancels claims, adopts examiner suggestions, removes issues for appeal, or in some other way requires only a cursory review by the examiner, compliance with the requirement of a showing under 37 CFR 1.116(b(3)) of good and sufficient reasons why the amendments are necessary and were not earlier presented is expected in all amendments after final rejection of good and sufficient reasons why the amendments are necessary and were not earlier presented. Failure to properly reply under 37 CFR 1.113 to the final rejection results in abandonment.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to KEVIN HURLEY whose telephone number is (571)272-6646. The examiner can normally be reached on Monday-Friday 9:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley Morris can be reached on 571-272-6651. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
